This book has detailed information that is not to overwhelming. The author does a good job of breaking down the material so it can be understood. It is a great book for someone who wants to review the American legal system and it also serves as a great book for someone studying the American legal system for the first time.

I wish I had this book in high school, maybe I would have grasped our U.S. systems then. This is a great read. It is useful, clear, and has the perfect range of topics. I didn't give 5 stars because one or two chapters were a bit boring. We used this for a graduate level intro class, but I think a wide range of readers could find it useful.

Not much to say other than this was the book that my instructor had required for class. It was in

great condition and beats the campus bookstore price.

For the price this is very enlightening and thorough, very good buy and author, this is a must read by all citizens

excellent book, a must read for anyone wanting to know more about the law and legal proceedings. A must have

Great book. Had to buy it for my Judicial Systems class. I learned many things after reading it.

Great description. Book arrived in time for my first day of class.. GREAT

Too much information in very small print.
