# The Legal Environment Of Business: Text And Cases

## Synopsis

Comprehensive, authoritative, and cutting-edge, THE LEGAL ENVIRONMENT OF BUSINESS combines a classic black letter law approach with an interesting and accessible reader-friendly format. The cases, content, and features of the exciting new ninth edition have been thoroughly updated to represent the latest developments in the business law environment. An excellent assortment of cases ranges from precedent-setting landmarks to important recent decisions, and ethical, global, and corporate themes are integrated throughout. In addition, numerous features and exercises help you master key concepts and apply what you've learned to real-world issues, and the book offers an unmatched range of support resources, including innovative online review tools.

## Customer Reviews

I am giving this book five stars, because it managed to make a subject that I dreaded to study actually interesting. It did have the usual dry and dull explanations of law, but it included actual cases interspersed between the dull explanations to show how the law is actually applied. It is also impressively up to date in the cases and examples it uses (especially cases involving the internet which is fairly new in our common law history). It was the cases and their proceedings that really helped me while learning about how different laws are actually interpreted. This was a great textbook in terms of a brief overview of law for those who are new to the subject.

This book is very informative and outlines all the latest legalities of business law. Additionally, it gives several real life cases in each chapter to provide examples of the course material. Used for

MBA Legal Environment of Business class which was perfect.

This is a great book. I would give it 3 1/2 stars but it won't let me. A lot of people have said that it makes the concept very easy to explain, well for me it hasn't. It takes me a few reads to get what they're talking about. But overall it's a great book how they show you sample cases, how to read a case and file it correctly. It's better than any other legal book I've read. Some chapters are boring as hell but some of them are super interesting and fun to read. I rented this book but I think I'll just buy it. Since I know I will need it in the future for reference.

Even if I bought it as used, it came out really good. There were no highlights or stains on the pages of the book. It looks brand new actually. Overall, I am so pleased with this book, and I'm glad that I did not rush in buying a new one. Thanks!

This is a great book! I never thought I would have fun and be interested in reading this book. It's amazing of all the laws I was not aware of, if you are renting it for a class good.. but consider buying it since it's very helpful if you are thinking about opening up your own business, if you are an entrepreneur, etc. it's amazing! highly recommend it.

I loved the class that went along with this textbook. This textbook was easy to read and very easy to understand. I absolutely recommend this book to any business law students even if it's not the textbook needed for the class.

Although this textbook presented an immense amount of information, it was extremely helpful and the copy was in great physical condition.

The book I ordered is exactly what I received! For some reason, however, the book's binding seems to be a little loose, as if it feels like it wants to fall apart? Thank you for a speedy shipment!
