Modern Family Law, Fifth Edition (Aspen Casebooks)

Synopsis

Modern Family Law reflects the social diversity of the modern family as it examines the legal impacts of the women's movement, the children's rights movement, the fathers' rights movement, domestic violence, changing sexual mores, nontraditional family forms, and developments in reproductive technology. Integrating valuable interdisciplinary perspectives, the text includes excerpts, notes, and questions emanating from history, psychology, sociology, social work, medicine, and philosophy. A variety of problem exercises, most derived from actual cases and current events, covers cross-cutting themes as well as the basics of family law. Human-interest stories that complement the cases heighten student awareness of the real impact of the law on people's lives. Modern Family Law Easily adapts to shorter or longer courses. The Fifth Edition offers contemporary perspectives on family law theory and covers new developments on such topics as alienation of affections, adoption, assisted reproduction, attorneys' sexual ethics, bigamy, child abuse, child custody and support, divorce, domestic violence, grandparents' visitation rights, names in the family, parentage, premarital agreements, and reproductive rights. The text features major coverage of developments on same-sex marriage, DOMA, and other issues of equality for gay and lesbian families. The decline of marriage and the rise of new conceptualizations of family are explored along with the return of the "culture wars" including political disputes about contraception. Features: reflects the social diversity of the modern family examines the legal impact of important topics the women's movement the children's rights movement the fathers' rights movement domestic violence changing sexual mores nontraditional family forms developments in reproductive technology integrates valuable interdisciplinary perspectives excerpts, notes, and questions history, psychology, sociology, social work, medicine, and philosophy covers cross-cutting themes as well as the basics of family law presents a variety of problem exercises, most from actual cases and current events easily adapts to shorter or longer courses heightens student awareness of the law's impact through human-interest stories Thoroughly updated, the revised Fifth Edition presents: new developments on: alienation of affections adoption assisted reproduction attorneys' sexual ethics bigamy child abuse child custody and support divorce domestic violence grandparents' visitation rights names in the family parentage premarital agreements reproductive rights major coverage of developments on same-sex marriage, DOMA, and other issues of equality for gay and lesbian families the decline of marriage and the rise of new conceptualizations of family contemporary perspectives on family law theory the return of the "culture wars" including political disputes about contraception

Customer Reviews

This book is one of the best for really learning family law. It presents family law as a subset of constitutional law, meaning that it reflects how constitutional privacy rights affect families and provides a user-friendly, yet critical look at family law issues. This is the kind of book that reveals family law is so much more than forms practice (e.g., just fill out the form and your divorce will be done, etc.). This book shows family law is an area that requires the same level of reflection and analysis of any other complex doctrinal class.

There are NO PAGE numbers. While I appreciate the push to make this book available as an e-book, in order to make this useful for classes pages are a MUST! Please fix if possible.

Good textbook!

Great condition!
