Customer Reviews

It is a text book after all, but the author's writing style could not be improved. It's an excellent text. This text is full of familiar and up to the minute cases too to help the student relate to the legal issues.

This is actually a very good book. The information is practical, relevant, and comprehensive. That said, it is about a lot of legal matters so the vocabulary is a bit exhausting to follow at times. In general the lawyer speak is broken down rather well and I've gained a great deal of knowledge from reading this.

Used for an online class. Good book with a lot of case studies. Easy to understand and has a lot of

examples. The cases are relevant with current/popular companies. I remember a class where the case studies were so old I did not recognize some of the companies in the book. Delivery exactly as expected.

This book is definitely overpriced. The author rambles on at times. Rent or buy a used edition as unless you are in human resources, as you will never look at this book again after completing your class. For the most part this book is nothing more than liberal propaganda. Avoid it if you can. The author dedicated the book to his cat. Need I say more?

Great price. Needed this book for an MBA class. It was nearly 500.00 at my school, got it from AZPrime for 60.00 rental fee. Woot-Woot

grandson needed for university class...glad he is graduating in May

Great Condition. Very happy with my purchase.

I will not review this book as far as content, however, it was a smooth transaction in regards to fulfilling my needs for my Emp. Law and Resources class. No surprises.
