## Customer Reviews

Evidently this trivia book was written with the idea that somebody would read these questions to another person (or people) who would answer the questions. The book doesn't work for the reader who wants to read and answer trivia questions on his own. The answers immediately follow the questions so closely that it is impossible not to inadvertently see the answer--even if you try to block it with a bookmark or your hand. Some of the questions are spelling questions. It asks, how do you spell \_\_\_\_? Well, now you've just seen the word you are supposed to spell. Even if you are going to use this book with another person, there are some faults. The author includes way too many questions about the names of obscure phobias--sometimes there are two of these phobia questions in a fifteen question quiz. I also thought there were too many questions about the length of rivers. This is not a terrible book, but I have certainly read trivia questions that were much more entertaining

bought this and four other quiz book for a fundraiser. I was quiz host and found that this 1500 General Knowledge Quiz Questions and Answers and One Thousand Quiz Questions and Trivia (1000 answers too) were the best value

Be prepared for phobias and heavy dose of Greek Mythology, as the formats get a little repetitive, but this trivia book has been fun for our family on long car trips.

The format is easy to follow. These questions Will help me compete at Deutsche house's trivia nite in New Orleans

There's lots of information here but the format is a little tough to read. There are several typos and formatting issues that made me twinge but overall, it's good fodder for trivia buffs.

I was able to use quite a few of the questions in the book, so I was happy with it. (Some questions were too easy for high school students, though.)

Good mix of questions but not organized by subject. 100 quizzes of 15 questions each. The 15 answers follow each quiz.

Nice selection of questions organized by topic. just as good as the more expensive, game cards in Trivial Pursuit.
