Principles Of Contract Law

Synopsis

This overview of contract law explains concepts clearly and concisely, in an informal, humorous style. For ease of reading and understanding, the book omits footnotes that often increase the difficulty and complexity of the issues. Instead, the footnotes cite cases, with most including short quotations to substantiate assertions made in the text. It also contains numerous examples and illustrations, often with the reader assigned a role in the problem, on the theory that the reader will be most interested and attentive with something at stake. Cross references enable review concepts that constitute building blocks for the current material.

Book Information

Paperback: 418 pages

Publisher: West; 2 edition (October 9, 2009)

Language: English

ISBN-10: 0314911626

ISBN-13: 978-0314911629

Product Dimensions: 9.2 x 6.2 x 0.7 inches

Customer Reviews

I wish I had found this book at the beginning of the semester. All of the needless reading of cases would have gone a lot faster. Very easy book to read, gives good examples, and explanations on underlying theories. Gives modern and classical views on different matters. I used this to study for my final, and it saved me so much time. At least cut my studying time in half because on average you can get through most of this book in a day and its so well explained that you don't need to take notes you'll remember the hypo's and the cases it references from your casebook. If you have a general idea of the concepts and have kept up with the readings in class, this book clarifies some of the gray area left unexplained in the case books. As well as reinforces your existing knowledge base. Definately worth the buy!

It really helps to supplement a casebook.and it made some ideas that were difficult in class a little more clear.Some professors, however, will point out ideas in this book which are not good law.

If you're using the Hillman casebook for your class -- this is a must have. Analysis on the vast majority of the cases are included.

Very well written treatise for contract law. This one is staying in my library for years to come. The cases didn't always match up to my casebook, but the concepts are spot-on and easy to comprehend.

If you use the Hillman/Summers textbook, you need this hornbook and you needed it yesterday. Bonus: the jokes are awesome.
