The World Of The Haitian Revolution (Blacks In The Diaspora)

Synopsis

In January 1804, the once wealthy colony of Saint-Domingue declared its independence from France and adopted the Amerindian name "Haiti." Independence was the outcome of the extraordinary uprising of the colony's slaves. Although a central event in the history of the French in the New World, the full significance of the revolution has yet to be realized. These essays deepen our understanding of Haiti during the period from 1791 to 1815. They consider the colony's history and material culture; its "free people of color"; the events leading up to the revolution and its violent unfolding; the political and economic fallout from the revolution; and its cultural representations.

Book Information

Series: Blacks in the Diaspora

Paperback: 440 pages

Publisher: Indiana University Press (January 21, 2009)

Language: English

Customer Reviews

Although I purchased this book in Nov. 2009, two months before the earthquake, I find that it offers helpful background and context for those of us who may want to better understand Haiti's history in light of the current, tragic aftermath of the terrible earthquake of Jan. 12, 2010.

This book came when promised. This book is used to help me in my historical background.
