Federal Income Taxation (Concepts And Insights)

Synopsis

This highly-acclaimed text explains the conceptual basis of federal income taxation. It is designed to help students quickly pull together the entire subject for end-of-semester review and provide perspective about where a topic fits within the federal income tax scheme. While focusing on the present income tax, the text provides an explanation of the often-discussed consumption tax and contrasts the two taxes in a note at the end of the volume. The new edition reflects legislative, judicial, and administrative developments since the twelfth edition (including the 2012 tax rate increases and the Supreme Court's Windsor decision), and increases the number of end-of-chapter problems by almost 60%.

Book Information

Series: Concepts and Insights

Average Customer Review: 5.0 out of 5 stars See all reviews (3 customer reviews)

Best Sellers Rank: #28,600 in Books (See Top 100 in Books) #5 in Books > Textbooks > Law > Tax Law #16 in Books > Law > Tax Law #62 in Books > Law > Business

Customer Reviews

This was helpful. I mean, if you are struggling with tax law (and chances are high that you will), this book can provide a lot of explanation. It is a while since I used it but I am quite sure if I had to make a decision again I would definitely take this. You don't have to buy it, but renting is definitely worth it.

Very good supplement

Good booj
