Customer Reviews

The book has no information on date/place of publication, no business address at which the author, Reissa Roni, might be reached, just a blank page where this data is available in any publicationWhen the book is opened, it is opened directly to the first of the 100 miniscule-font, complex, multi-columned pages which are incomprehensible to someone wanting to advance from keeping score on a piece of paper to using official scoring. THERE ARE NO INSTRUCTIONS WHATSOEVER ON HOW TO USE THE SCORING SYSTEM.I don't even know whom to give it to so I will RECYCLE a brand-new book and write it off as a total loss (cost of book + shipping).

Only 2 player, 4 player would be better.

Love playing scrabble
