Legal Research, Analysis, And Writing

Synopsis

Comprehensive yet easy to understand, the third edition of **LEGAL RESEARCH, ANALYSIS, AND WRITING** teaches the fundamentals in a hands-on, step-by-step format that is designed to build confidence. With coverage of key topics such as research analytical principles, legal research, legal analysis, and legal writing, this popular book covers the information readers need to know in order to find, access, apply, and analyze legal materials. Numerous hypotheticals, examples, and exercises clarify material and give readers additional opportunities for practice. In addition, the third edition includes the most up-to-date information in the field, with special attention given to electronic research programs such as WestlawNext, LexisNexis interface, Shepard's online, and Westlaw's KeyCite.

Asked for a new book was sent a book that should have been retired, tore and too may highlights and comments in the book. Very difficult to use in a master program that requires several hours of reading a week.

Seriously. This is such a terribly boring text.... But there is nothing exciting about law citation. Pick a new career path if you're looking for excitement. Paralegals are the grunts and get no glory. This book is proof.

Difficult to read. Very boring even though the subject is interesting. I agree with another reviewer

who thought the material is poorly organized. This is one of the most badly written college textbooks I've ever used. You probably are required to read this for a course, so grit your teeth and get through it.

Studying law and found this book hard to master. The chapters are very dense and un-organized. There is almost information overload going on here. However it will help you pass a course related to the subject, just make sure you have a lot of time on your hands and are computer friendly.

This book is great! My daughter uses it for her undergrad legal research and writing class. Only con is that the examples aren't that thorough.

I loved using this book. It helped me to prepare for my classes. The text was easy to read. I got an "A" in my class!

Very helpful when learning research. I refer to this book 100 times before I refer to "the blue book".

It was good for what I needed it for but my professor was better at teaching the subject! It was just okay
