[Procedure](#) #1010 in [Books > Law > Legal Education](#)

Customer Reviews

This was my constant companion during civil procedure my 1L year. You need this book if you want to go straight to the source and understand the procedural rules that you discuss in civ pro. The pages are thin, so you need to be careful about highlighters bleeding through. Other than that, it is well laid out, has a few good cases in the back, and generally does the job of being an effective reference tool.

I am using this book in my first year Civil Procedures law class and find it very user friendly. It is laid out in an easy to find order and the outlining of this book is very useful. It is not nearly as heavy as any of my other law books, which is a huge plus, and I am definitely relying heavily on it to help me understand rules and concepts in the law. Buy this book!

At first glance this textbook seemed dry. I expected to read easy flowing paragraphs about how to file and follow up on civil claims. It's definitely not novel-reading material. So, when I compared this book to the United States District Court for the Southern District of California procedures, "Federal Rules of Civil Procedure" became an excellent guide to what is expected of me, before, during and after court. And by the layout of each page of this book, it is easy to hone in on what the specific rules, procedures and even definitions to support any federal case that you are determined to win. I

recommend this book to anyone who is willing to step into the federal courts system, armed and ready to resolve federal questions.

Slightly more entertaining than being kicked in the sack by a mule.

This book is an excellent reference for any area of law. It is not a riveting page turner, but it is accessible and not too burdensome to carry around.

More or less the best way to get the federal rules of civil procedure in a condensed book. Need to purchase new updates occasionally

Waited to order my book at the last minute and it came quick and faster than what I had expected.

That's what I ordered and it has met my expectations.
