Baldness Cure

Synopsis

This book presents a programme designed to stop hair loss and naturally restart hair-growth by a two-minute treatment, morning and evening. Over 8 million men suffer from thinning and balding hair in the UK alone and this revolutionary new book aims to prove that it is possible to arrest hair loss and restart hair growth without the use of surgery or drugs. Tested on all ages and every stage of hair loss, from slightly thinning to completely bald, there is new hair growth in every case. The book looks at current accepted causes of baldness and addresses why people really lose their hair. It details a natural hair growth programme and guarantees results: arresting hair loss, thickening existing hair, improving hair quality and regrowing lost hair. There are case histories from people already on the programme, a doctor's view, a hairdresser's view and an analysis of the difference between male and female baldness.
