This book has become a family favorite. Our 96-year-old mother is no longer able to read novels because she has lost the kind of memory you need to follow a story. She does crossword puzzles with an ability that amazes us daily. The good part of this book is its consistency, unlike the Charles Timmerman follow-up which is impossible. Since our mother has lost her short-term memory, you would not think she could do crossword puzzles that would seem to require a good memory. Even she does not know how she does it....nor do we. If you want some large print, easy puzzles, grab this book. You will love it, even if you do it over and over.

I would have given this book 5 stars...but...while the puzzles are very easy and the print is nice and large...the "clues" on the opposite page are a lot smaller. I cannot understand why they would do that. It just does not work for someone with bad eyesight.

I was disappointed when I receive my large print crossword puzzle book although, crossword box itself was large the printed questions of the puzzle were no larger than an ordinary print puzzle. This defeated the purpose for my ordering the book in the first place.

I purchased this large format book for my elderly parents who enjoy crossword puzzles. I hoped the large format would help them work the puzzles, and it did. However, they found the puzzle clues to be so linked to current pop culture, or maddeningly unclear that they gave up in frustration. These are two sharp, well-read people, who just don't read or watch a lot of TV or listen to rock music.

We purchased this large-print crossword book for my husband as he has macular degeneration and cannot see well. The only thing that makes this book large is the size of the page. The print is only slightly larger than standard and the grid itself takes up less than half the page, even though it is centered in middle of the page. Rating: Bad, not worth the money. Threw it in the trash.

This book is great! I can see the puzzles so easily. Great for doing puzzles on the beach.

My mother has alzheimer's and she can no longer read or comprehend much. If I don't find activities for her, she just sits in a chair. Bought this book and it's perfect. It's easy enough that she can come up with some of the answers on her own - which gives her a tremendous sense of accomplishment - and it's a fun thing for the two of us to do together. She just loves doing the puzzles and will sit on her own with the book and fill in what she can too. I'll be buying more of these. Thank you, for this!!

I got this for my mom since she loves crossword puzzles.....I was happy with the size of the puzzles and the fact that it wasn't hard but was challenging enough for her. What I didn't like was that the first three puzzles had been filled out, I bought this from one of the third party vendors for a cheaper price. I was expecting a few worn places on the cover or a tear, I wasn't expecting it to be partially filled out. The vendor should have put that in their description
