Words. Said aloud. Said slowly or fast. Whisper the meanings in my ear so I could understand at long last.

Too short, wish it was longer but worth the time to read. Made me laugh out loud a couple of times

I may be one of the few people who get this book. It's comical and confusing. I LOVED IT. It's like a twisted romance novel... the girl that fell in love with the boy who is too big of a pussy to say anything.. relocate your balls please. Amen.

The concept of parody is to make fun of something...so it should have been more fun and not just agitated..but I don't like South Park either ...still it was witty, and a good thing it was only maybe 10 pages.

Greatest book ever. You can both relate to some things and laugh others. It may be short but well worth it. I loved it.

This book was indescribable. I surely have to read it again, again after that, and maybe once more after that. Perhaps twice. Three times for the full effect. Five stars because of the unexpected connect I had with the book. It was odd, not knowing what was being said yet understanding it completely. Not necessarily understanding the true meaning, but understanding that what was being said was being said for a reason. I really appreciated the connect of Good Night Moon sounding more like a suicide note rather than a children's book.

I Wrote This Crap For You is a great read if you enjoy the darkly sexual themes of the Police. The reader is the subject of the author's obsession, and the author alludes to stalking the reader, though the reader is certainly not the author's first victim. It is intimate and interesting, putting your face on terrifying social issue. Great read over all, with very poignant imagery.

The story follows the author as he gets to get the certain girl to read this story. The story has some morbidly funny sides to it as well as some irrelevant pictures that would only make sense to that girl.
